

Stephen Behunin | Data Scientist

Springfield, MO – 801-557-0662 – stephenbehuninwork@gmail.com – [linkedin.com/in/stephen-behunin](https://www.linkedin.com/in/stephen-behunin)

Data Scientist with 4.5 years in healthcare claims auditing and compliance analytics. Built a Tableau program from scratch into four BI products on a \$10M+ ARR platform: 120+ custom reports, 35%+ buy-through. Owned product strategy and roadmaps, autonomously drove initiatives end to end, and turned client needs into trusted, tailored reporting.

SKILLS

- » SQL & Relational Databases: Microsoft SQL Server (Microsoft Certified), PostgreSQL, T-SQL optimization
- » Tableau Desktop & Tableau Server administration (deployment, embedding, disaster recovery)
- » Python for Data Science: scripting, data processing, NumPy, Pandas
- » Statistical Analysis, Business Analysis & KPI Development
- » Data Validation, QA & Data Integrity
- » Team Leadership & Cross-Functional Collaboration (QA, IT, Development, Customer Success)
- » Product Strategy & Roadmap Ownership
- » AI-Assisted Development (Claude Code): query tuning, workflow automation, prototyping
- » Client management: Owning relationships from scoping through delivery and retention.
- » Clear and consistent communication at the level of the audience (Customer, Team, Leadership)

WORK EXPERIENCE

Healthicity

DATA SCIENTIST II

Dec 2021 – Jun 2026

Remote

- » Led the company's reporting division directing two team members and partnering across multiple teams and leadership to establish prioritization, SOPs, workflows, and management processes that kept a large dynamic workload on track.
- » Cultivated deep client rapport and confidence by truly understanding each customer's unique reporting needs, then meeting them through custom infrastructure and tailored reports implementing data-visualization best practices.
- » Conducted business analysis projects end to end, reporting directly to leadership, determining metrics and KPIs that regularly informed key strategic decisions.
- » Owned the long-term product strategy and project roadmaps for the company's BI tool development, aligning the platform with both current and future business needs including architecting reporting systems. Including maintenance and improvement of application and database infrastructure systems.
- » Utilized and added contributions to the company's full analytics stack, including Python, MSSQL, PostgreSQL, Tableau and Tableau Server on Linux, GitHub, and Excel. Implemented AI tooling with Claude to refactor and tune queries, automate workflows, accelerate development, and prototype a new analytics product in JavaScript and Vite.

JBB Equity

Analyst/Property Manager

Jul 2017 – Jun 2024

Salt Lake City, UT

- » Sourced and analyzed properties for purchase, rehab, and resale, building full investment packages covering comps, renovation costs, project timelines, ROI projections, and contractor bids.
- » Oversaw construction projects end to end, delivering regular stakeholder updates and tracking progress against timelines.
- » Held full responsibility for property management – resolving tenant conflicts, administering contracts, preparing legal documentation for tenant complaints, and completing select repairs and upgrades.

Hale Center Theatre
Welder/Fabricator

Feb 2019 – Nov 2019
Salt Lake City, UT

- » Solved unique, project-specific fabrication challenges through hands-on technical troubleshooting and experimentation.
- » Owned builds from inception to completion, working autonomously and collaborating within a small team as needed.

EDUCATION

Data Science Diploma

BrainStation

Remote – Jul 2021 – Oct 2021

AWS Entry Level Welding Certificate in Welding FOR TIG, STICK, MIG and FLUX CORE WELDING

Mountainland Tech.

Orem, UT – Aug 2018 – Nov 2018

CERTIFICATIONS

Microsoft SQL Server

Microsoft

Jan 2026 – Mar 2026
